Doctoral Program in Complexity Sciences 2015-1016

---

## **Research Methods for Phd in Complexity Sciences II**

### Goal

Students will develop competencies in essential procedures for writing and presenting a scientific article. Students will also develop competences in organising a scientific event.

### Program

1. Preparing and writing a scientific article.
2. Organizing a workshop internal to the doctoral programme.
3. Presenting and discussing the article in the workshop.

### Assessment

Continuous Assessment:

- Scientific article:
  - text (50%)
  - presentation (30%)
- Organisation of the workshop (20%).
